

Table of Contents

1. Data Preparation Techniques for Web Usage Mining in World Wide Web-An Approach <i>V.Sathiyamoorthi and V. Murali Bhaskaran</i>	1-4
2. Hybrid Algorithmical Approach for VLSI Physical Design – Floorplanning <i>Hameem Shanavas.I, Gnanamurthy.R.K and VenkataRaman.S</i>	5-7
3. Application of Neuro Fuzzy Network for The Analyzing The Pain Through Facial Expression <i>R.Ramya and R.Anandanataraj</i>	8-10
4. Discovery of Best-Fit UI-Component using Comprehensive Analysis <i>A.V.Sriharsha and A. Rama Mohan Reddy</i>	11-13
5. Pragmatic Applications of Architectural Knowledge <i>M.Sunil Kumar, A.Rama Mohan Reddy and A.V.Sriharsha,</i>	14-16
6. Media Access Control (MAC) Mac Spoofing And Its Countermeasures <i>A. Deepak Gupta, B. Gaurav TiwariI, C. Yachin Kapoor and D. Praveen Kumar</i>	17-21
7. Peformance Evaluation Of Various Speckle Noise Reduction Filters On Medical Images <i>Raman Maini and Himanshu Aggarwal</i>	22-25
8. A Study on Long Term Behavior of Web Applications using Fuzzy Markov Model <i>R. Sujatha, B. Praba, and T.M. Rajalaxmi</i>	26-30
9. Designing Dependable Agile Layered Security Architecture Solutions – Web 2.0 Services Case Study <i>M.Upendra Kumar, D.Sravan Kumar and D.Shravani</i>	31-33
10. Optimal Cost-Effective Design of Standby Systems Subject to Imperfect Fault-Coverage <i>Giribabu G,Sarmistha Neogy and Mita Nasipuri</i>	34-38
11. Significant E-Governance Projects in Indian States <i>Sushil Kumar Singla and Himanshu Aggarwal</i>	39-42
12. On Implementing Joins, Aggregates and Universal Quantifier in Temporal Databases using SQL Standards <i>Unnikrishnan K and K.V Pramod</i>	43-46

13. Comparative Analysis of Different ADC parameters used in software radio for Mobile receiver 47-50
Preeti Trivedi and Ajay Verma
14. Determination of Location and Orientation of 3-Axis Accelerometer for Detecting Gait phase, Duration, and Speed of Human Motion for Development of Prosthetic Knee 51-53
Neelesh Kumar, Nissan Kunju, Amod Kumar and B.S.Sohi
15. Performance Analysis and Enhancement of Software Quality Metrics using Decision Tree based Feature Extraction 54-56
N Gayatri, S Nickolas and A.V.Reddy
16. Design, Development and Investigation on an Embedded System based Control for Networking Mobile Robots 57-61
Gokul Balakrishnan and Somashekhar S Hiremath
17. Extracting Content Blocks from Web Pages 62-64
Manisha Marathe, S.H.Patil, G.V.Garje and M.S.Bewoor
18. FPGA Based Autonomous Vehicle Locking System- A Smart Door Lock 65-67
S .N. Singh, Jayendra Kumar, Ravi Pratap Singh and Sanjay Kumar
19. Comparative Analysis of QoS Metrics in Mobile Ad Hoc Network Environment 68-70
R.Sivaraman, V.R.Sarma Dhulipala, L.Sowbhagya and B.Vishnu Prabha
20. Images and Its Compression Techniques – A Review 71-75
Sindhu M and Rajkamal R
21. Cryptanalysis of S-DES using Genetic Algorithm 76-79
Vimalathithan.R and M.L.Valarmathi
22. Speech Synthesizer Using Concatenative Synthesis Strategy for Marathi language (Spoken in Maharashtra, India) 80-82
S.D.Shirbahadurkar and D.S.Bormane
23. A Methodology to Check Integrity of a Class Hierarchy 83-85
S. Chandra and R. A. Khan
24. Database Utility In Bioinformatics -An Effort Based Curtail Approach Using Multi Agents 86-88
Jayanthi Manicassamy, T. Vengattaraman and P. Dhavachelvan

25. Energy Comparison and Analysis for Cluster Based Environment in Wireless Sensor Networks 89-91
R.Sivaraman, V.R.Sarma Dhulipala, V.Aarthy and K.Kavitha
26. Mobile Commerce : Standards & Design Technologies 92-95
Kanwalvir Singh Dhindsa and Himanshu Aggarwal
27. Implementing K-means Algorithm using Row store and Column store databases: A case study 96-100
Suresh.L, Jay.B.Simha and Rajappa Velur
28. Performance of Routing Protocols for Mobile Adhoc and Wireless Sensor Networks: A Comparative Study 101-105
A.K. Dwivedi, Sunita Kushwaha and O. P. Vyas
29. Web Based Learning Tool for Relational Database Design 106-108
Harish Shakya and Aruna Tiwari
30. Heuristic Approaches with Probabilistic Management for Node Placement in Wireless Sensor Networks 109-111
P. Sasikumar, Shriram K Vasudevan , Vivek C and Subashri V
31. Techniques For Efficiently Serving Data And Dynamic Data At Webservers Using Internet And Intranet Technology 112-116
S N. Gujar, G.R.Bamnate , R.S.Apare , M.A.Pund and S.R.Gupta
32. Mobile Agent Based Distributed System Computing In Network 117-119
S N. Gujar, G.R.Bamnate , R.S.Apare , M.A.Pund and S.R.Gupta
33. Building a secured wireless LAN 120-122
Rajni Pamnani and Pramila Chawan
34. Implementation of WAP Gateway Technologies Through Wireless Communication 123-125
K.Muruganandam, V.Palanisamy, A.Krishnan and R.Rajesh
35. Fuzzy Relational Equation In Preventing Neuropathy Diabetic 126-128
S.Sapna and A.Tamilarasi
36. Design issues of 'Vulnerabilities and Suspicious behavior detection system' in Storage Area Network (SAN) 129-133
Sandeep Abhang, Sachin Deshmukh, Ulhas Shinde and Ratnadeep Deshmukh

37. Edge Node Based Greedy Routing for VANET with Constant Bit Rate Packet Transmission <i>K. Prasanth, K. Duraiswamy, K. Jayasudha and C.Chandrasekar</i>	134-137
38. Exploiting XML Dom for Restricted Access of Information <i>B.Naga malleswara Rao, N.Samba Siva Rao and V.Khanaa</i>	138-142
39. Performance analysis of neural network based time domain adaptive equalization for OFDM <i>Dilip S. Aldar and B.B.Godbole</i>	143-147
40. Exudates Detection And Classification In Diabetic Retinopathy Images By Texture Segmentation Methods <i>P.N. Jebarani Sargunar and R.Sukanesh</i>	148-150
41. Smart Guide for Location Projection <i>Saththivel.K and Mathew Nehru Vazhuthi Selvam.A.M</i>	151-154
42. Threats and Vulnerabilities in Wireless Mesh Networks <i>M.S.Aswal, Paramjeet Rawat and Tarun Kumar</i>	155-158
43. Security Border Gateway for Securing Mobile IP Networks <i>Ashish Kumar Jain and Poonam Sinha</i>	159-161
44. A DSP Implementation of Embedded Zerotree Wavelet (EZW) Image CODEC in Image Compression System <i>Shamika M. Jog and Shashikant. D. Lokhande</i>	162-164
45. Multithreading - An Efficient Technique for Enhancing Application Performance <i>M.Shanthi and A.Anthony Irudhayaraj</i>	165-167
46. Motion Estimation on DWT Based Image Sequence <i>P. C. Shenalikaar and S. P. Narote</i>	168-170
47. Handoff in Heterogeneous wireless networks by Adjusting the Transmission Power [RSS]/Rate <i>E.Arun and R.S.Moni</i>	171-175
48. Information Theory and Neural Network based Approach for Face Recognition: A Review <i>S.N. Kakarwal and R R. Deshmukh</i>	176-178
49. Domain Specific Information Retrieval in Multilingual Environment <i>S M Chaware and Srikantha Rao</i>	179-181

50. LAN Machine: A Virtualized Network For Developing & Testing Network & Cloud Applications On A Single Machine 182-186
Mohanish Penta, Abhishek Prabhudesai, Sunil Bablani and Veeral Panwala
51. Agent Controlled Approach to Constraint Measure Stock Control & Secured Auto Purchase Order Processing through Trusted Suppliers 187-191
J.Sheik Mohamed and S. Ramakrishna
52. Reverse Engineering-A Swiftly Growing Technology in Software World 192-194
Preet Inder Singh and Richa Gupta
53. A Comparative Study Of Mobile And Vehicular Adoc Networks 195-197
A Rahim, I. Ahmad, Z. S. Khan, M. Sher, M. Shoaib, A. Javed and R. Mahmood
54. Improving Software Maintainability through Risk Analysis 198-200
N.Narayanan Prasanth, S.P.Raja, X.Birla, K.Navaz and S.Arif Abdul Rahuman
55. DR2: A Two-Stage Dynamic Replication Strategy for Data Grid 201-203
P. K. Suri and Manpreet Singh
56. A Cache Operation in Mobile Database Using Genetic Algorithm 204-206
A.Sripriya and R.Dhanapal
57. Managing Uncertain Data using Multi Criteria Repeat Crossover Genetic Algorithm 207-209
G .Radhamani and Niju .P. Joseph
58. Improved Prefetching Methodology to Enhance Web Personalization 210-212
S.R.Balasundaram and S.Akhilan
59. WordNet: A Knowledge Source for Word Sense Disambiguation 213-217
S. G. Kolte and S. G. Bhirud
60. E-Trainer for People with Learning Disabilities 218-220
K.Nandhini and S.R.Balasundaram
61. Efficient Memory Mapping in GSM Phones 221-223
Gurvinder Singh, Sheetal Bawane and Sumant Katiyal
62. Analysis of Wavelet Le Gall 5/3 transform in Image Watermarking 224-227
Navjeet Sidhu, RS Uppal, Kamaldeep Kaur and RS Kaler
63. ATM Network QoS Parameters and Performance Analysis using OPNET Simulator 228-231
Parag Jain, Sandip Vijay and S. C. Gupta

64. Generalized Framework for Agile Software Development Process 232-234
Bhalerao Shilpa and Ingle Maya
65. SCA for context-aware mobile applications 235-239
Jagannadham Dulipala and V. Ramachandran
66. Sensor – Based Dead Reckoning for land vehicle navigation system 240-242
K.Venkatraman, N.Karthick, J.Naren and B.Amutha
